ned™ stool

A trusted companion for students

furnware

ned™ stool

The Ned™ Stool is made from post-consumer recycled (PCR) plastics making it a responsible solution for schools when fitting out their learning space environments. Sebel brings you this stool in a range of PCR colours, including Amber, Forest, Ocean and Slate.

Tried and tested, the Ned™ stool can handle the tough love from kids both indoors and outdoors and are stacks of fun whenever and however they learn. The stool is a trusted buddy that can go anywhere with students and teachers depending on the activity they're doing.

Creating welcoming and engaging spaces that support students in being the best that they can be within the classroom is at the forefront when Sebel are designing trusted, durable products. The Ned™ stool is designed with the user in mind while being a sustainable and environmentally friendly option.
